

Remarks

Reconsideration of the above-identified application is respectfully requested.

Applicant is submitting a new specification as a matter of convenience to respond to the objections made to the original specification. The substitute specification is shown on Exhibit A, and a marked up version of the original specification is shown in Exhibit B. Applicant requests cancellation of the original specification.

The drawings have been corrected so that they are not mounted and are in accordance with 37 CFR §1.65 and 1.84(e).

Applicant submits that the substitute specification and drawings, submitted in duplicate, are in compliance with 35 USC §112 first and second paragraphs, and 37 CFR §1.163, 1.165 and 1.84(e). Therefore, Applicant requests an early Notice of Allowance of the Claim.

Respectfully submitted,

Attorney for Applicant
